

I CAN'T WAIT MUCH LONGER

Now baby needs diamond skies

Caviar and moon and wine

She hasn't yet made up her mind

If she'll take me

I've seen my love stoned and deep

Let my future at your feet

For a simple life, for love and sleep

You can take me

And every day it gets stronger

every day just grows and grows

I can't wait much longer

Round and round in dreams I go

Set me free baby or tie the bow

Up or down let me know

But don't ignore me

-----R----- SOLO

Get my coat and I'll catch a train

Make my way down to New Orleans

Find a seven house soaked in gin

To console me
