

# Just a blues

*(Charlie Vitamine)*

Yesterday I was playing that blues near the  
police station

and a policeman told me: "don't play here man"

I said: I was playing that blues near the police  
station

and a policeman told me: "don't play here man"

But I was still playing that that blues

And I told him: "listen to me now"

After that he was in a very very bad feeling

He wanna take my guitar a just want to broke it

I said: after that he was in a very bad feeling

He wanna take my guitar a just want to broke it

But I was still playing that that blues

And I heard my guitar a'crying

Now! I am playing that blues for you and you

And I'm getting borded with cops and guns

I said: I am playing that blues for you and you

And I'm getting borded with cops and guns

But can you hear me when I tell you:

"I just wanna play a blues for you ... and you"
